Re: Carothers Workshops

In an effort to increase awareness in the community of Carothers Coastal Gardens and all it has to offer, we have put together a series of art, fitness, and cooking workshops aimed at showcasing the property's versatility and beauty. These workshops will not only produce revenue, they will let people who have never heard of Carothers know about the property, and it will show people who only know Carothers as a wedding venue that it can be used for much more.

These workshops utilize instructors from Seabrook who are interested in giving back to their community. Seabrook businesses who are partnering with us will be promoted and benefit from the exposure. These workshops aim to make Carothers lively and well utilized, and to make it an important and vital part of the community.
